FIRST ORDER OF BUSINESS

Roll Call

Ms. Adams called the meeting to order and called the roll. A quorum was present.

SECOND ORDER OF BUSINESS

Public Comment Period

Ms. Adams: No members of the public were in attendance.

THIRD ORDER OF BUSINESS

Approval of Minutes of the January 28, 2021 Meeting

Ms. Adams: Any approval is subject to a couple of minor non-substantive corrections that staff noted. Did the Board have any other comments or corrections to the minutes? Otherwise, we need a motion to approve them.

On MOTION by Mr. Kraljev seconded by Mr. Bonin with all in favor the Minutes of the January 28, 2021 Meeting were approved as amended.

FOURTH ORDER OF BUSINESS

Ratification of E-Verify Memorandum of Understanding

Ms. Adams: Last month, the Board approved the District enrolling in the E-Verify System. Included in the electronic agenda package is verification including a certification. We just need a ratification of the enrollment from the Board.

Mr. Bonin: What is this?

Ms. Adams: The E-Verify System is a new state law tied to the Department of Homeland Security to verify immigration status. Included in your full agenda package is all of the documentation including a Certificate of Enrollment.

Mr. Bonin: Was there ever before this, any version?

Ms. Adams: Not for the State of Florida. It has been a Federal program for a long time. In the last State of Florida Legislative Session, they passed this as a new law that went into effect on January 1, 2021.

Mr. Bonin: So, it involves I-9s?

Ms. Adams: I-9s have been part of personnel procedures.

Mr. Bonin: So, what is the protocol for companies that hadn't done this yet? How long do they have before they get kicked off?

Ms. Adams: The E-Verify System in Florida is effective January 1 moving forward. So, no organizations have to go backwards in terms of their agreements, but moving forward, in order for private organizations to engage in the agreements with Districts, the private organization also has to enroll in E-Verify.

Mr. Bonin: So, if there's a contract that we already have with a landscape company, do they have to E-Verify immediately or is until their contracts are re-signed?

Ms. Trucco: If it's an existing vendor, they don't have a duty to enroll, but we have a duty to check with them the next time we enter into an agreement with them or have an addendum to an agreement or extension. If they are signing an agreement with a contractor or sub-contractor after January 1, we have to confirm that they enrolled in the E-Verify System, but it's not retroactive.

Mr. Bonin: Have you heard anyone squawking about this?

Ms. Adams: In other Districts, we started to engage appraisal services for smaller vendors. It is cumbersome to enroll because each organization that enrolls is required to go through a process including watching a 30-minute video. So, it's clunky and cumbersome to enroll.

Ms. Trucco: I think the labor will be moving forward once they are enrolled. Any new employees that they hire, must submit a bunch of information to the Department of Homeland Security. All of that is confirmed and verified with the IRS. They are trying to crack down on immigration in the State of Florida.

Mr. Bonin: I'm just curious about our landscape companies and owners. They are not going to like this.

Ms. Adams: You are right to raise an eyebrow in terms of the reach for this new program and the impact for the exact kind of industry you just described; landscaping, agricultural and construction.

Mr. Bonin: That's interesting. It sounds like we don't have much of a choice going forward if they want to keep doing business.

Ms. Adams: Correct.

Mr. Scheerer: I talked to all of the contractors that work with the District to tell them what is happening. I told them, "You have a contract now, but if you want a contract at the end of 2021, you need to be E-Verified." A lot of them said, "Okay." Yellowstone, OmegaScapes and Down2Earth are all in compliance.

Ms. Trucco: A lot of them are already enrolled.

Mr. Scheerer: They got their verification number in 2013.

Mr. Bonin: So, this is just ratifying for this District?

Ms. Adams: Yes. This District is now enrolled. We are required to enroll in the system. That was the first actionable item. The other actionable item as a result of this new law is for the agreements we enter into. That contractor also has to enroll in E-Verify.

Ms. Trucco: This Board approved a resolution that approved us enrolling in the E-Verify System and delegating authority to the Chair and Vice Chair to do anything necessary to ensure compliance in the future.

Mr. Bonin: Is this a system that already existed, but our State Legislature mandated it?

Ms. Trucco: That is correct.

Ms. Adams: So, we can join in with the Department of Homeland Security E-Verify System.

Ms. Trucco: Any public employer has to follow this new law.

Mr. Bonin: So, it was not an option then.

Ms. Trucco: There's no option. So, this Memorandum of Understanding (MOU) is a form that the District had to sign in order to enroll in the system by law. Tricia provided that for us. We are asking the Board to ratify it today.

Ms. Adams: For Field Management Staff and anyone else who is managing the contracts that we require back from vendors as proof of enrollment, is this certificate.

Mr. Scheerer: We will keep it on file.

Ms. Adams: It's on file along with the Certificate of Insurance and any other required documents for the agreements.

On MOTION by Mr. Bonin seconded by Mr. Ashby with all in favor delegating authority to District management staff to enroll the District in the E-Verify System and handle all administrative matters was approved.

Mr. Bonin: Will there be communication going out to existing vendors giving them a heads up that this is going to be a requirement and if not, can we, so they don't get caught off guard?

Ms. Adams: There hasn't been formal communication yet, but you heard from Alan.

Mr. Scheerer: I am notifying all of the vendors. I have been doing it since we got the memo from our office that this was coming down the line. So Fausnight, the guys that do the striping, are on board. My pressure washer guy is just a two-man crew. He is already enrolled. OmegaScapes, your current landscape provider is already enrolled.

Mr. Bonin: Okay.

Mr. Scheerer: I just have to follow up.

Mr. Bonin: Sounds good.

FIFTH ORDER OF BUSINESS

Consideration of Resolution 2021-06 Providing for Removal and Appointment of Treasurer and Appointment of Assistant Treasurer

Ms. Adams: We had a change in our Accounting Department. So, a resolution was included in your agenda package for the removal of Mr. Ariel Lovera as Treasurer and the appointment of a Treasurer and Assistant Treasurer who are part of the Accounting Staff at GMS. That would be Ms. Teresa Viscarra as Assistant Treasurer for the purpose of processing accounts payable to ensure there was sufficient flow in the accounting. So, we would be looking

for a motion to approve Ms. Jill Burns as Treasurer and Ms. Teresa Viscarra as Assistant Treasurer.

On MOTION by Mr. Kraljev seconded by Mr. Ashby with all in favor Resolution 2021-06 Removing Ariel Lovera as Treasurer and electing Jill Burns as Treasurer was adopted.

SIXTH ORDER OF BUSINESS

Consideration of Landscape Maintenance Proposals

Ms. Adams: In your agenda package was a proposal from OmegaScapes. Subsequent to the first issuance of the agenda, we also received a bid for the exact same area from Yellowstone.

Mr. Scheerer: This is for the expanded portion from Story Time Drive to Dowden Road.

Mr. Bonin: The yellow area?

Mr. Scheerer: Yes, sir. Who is the current landscaper?

Ms. Adams: Yellowstone currently services that area.

Mr. Bonin: On behalf of?

Mr. Scheerer: Dowden West CDD, which is the next CDD. Who is doing the green area now?

Mr. Scheerer: OmegaScapes does all of our landscaping.

Mr. Bonin: So, we have OmegaScapes and Yellowstone pricing the yellow areas.

Mr. Kraljev: Because we expanded the boundary, Rob, we have to include it.

Ms. Adams: Ultimately, Yellowstone's bid came in at \$35,280. OmegaScapes bid came in at \$59,880. Yellowstone has been servicing the area and there is no reason why we would not recommend the most cost competitive vendor. So, it would be staff's recommendation to accept the proposal from Yellowstone.

Mr. Bonin: Is that yellow section on a separate irrigation system?

Mr. Scheerer: Yes.

Mr. Kraljev: We did a joint Development Agreement with Dowden CDD and we share the costs.

Mr. Bonin: Who bid it out? Mattamy?

Mr. Kraljev: Yes, because Mattamy got started before we did.

Mr. Bonin: Did Yellowstone install landscaping there?

Mr. Kraljev: I couldn't tell you. It wasn't under our control.

Mr. Bonin: How long have they maintained that area?

Mr. Kraljev: A year.

Mr. Bonin: Because we are expanding our boundary, we enveloped that into this.

Mr. Scheerer: This is not within our boundary. I guess it would be part of our Interlocal Agreement with the City of Orlando.

On MOTION by Mr. Bonin seconded by Mr. Ashby with all in favor the proposal with Yellowstone for landscape maintenance services in the expanded portion from Story Time Drive to Dowden Road in the amount of \$35,280 was approved.

SEVENTH ORDER OF BUSINESS

Consideration of Underwriting Agreement and G-17 Disclosure with FMSBonds, Inc.

Ms. Adams: This is part of the bond issuance. I think you have all sat through these meetings before where an Underwriter indicates there is not a fiduciary duty to the issuer. So, a letter was included in the agenda package. Are there any questions? If not, we would be seeking a motion to approve the agreement.

On MOTION by Mr. Kraljev seconded by Mr. Ashby with all in favor the Underwriting Agreement and G-17 Disclosure with FMSBonds, Inc. was approved.

EIGHTH ORDER OF BUSINESS

Financing Matters

A. Consideration of Engineer's Report – Parcel K Boundary Expansion

Ms. Adams: This is tied to your bond issuance for Assessment Area 4, which is tied to the Parcel K boundary expansion. Christy, did you want to summarize the improvements tied to Assessment Area 4 that are in the Engineer's Report?

Ms. Baxter: The Engineer's Report has been updated to incorporate the lands within Parcel K. The expanded area includes Areas 10 and 11, which are Phases 1 and 2 of Lennar's development. Phase 1 is currently owned by Lennar. In Phase 2, they are about to take down the land from Moss Park Properties. They hold the ownership. The improvements include drainage, roadways, utilities and all of the infrastructure to support neighborhood development. So that has been incorporated into a report. We updated the cost associated with adding those lands into the report in the boundary. So, this is an update to the Engineer's Report to add all of that information specific to Parcel K.

Ms. Adams: There is no particular action required by the Board on this issue, but I will note that it will be attached to some of the resolutions that you approve. When we approve those resolutions, it will be subject to staff verification because there are a couple of areas that we are looking at closely with the engineer and some of the legal descriptions that were brought up to date.

Ms. Trucco: They will be subject to further amendments. They will approve it as part of the resolutions.

B. Consideration of Master Assessment Methodology for Assessment Area Four

Ms. Adams: The Master Assessment Methodology Report was included in the agenda package. The places that we will walk Boards through are the tables. Table 1 on Page 10, identifies 357 total units contemplated as part of this Assessment Area 4, which are Parcels K-1 and K-2. There are five different product types; townhomes and single-family homes in varying lot sizes. The assigned Equivalent Residential Units (ERUs) are equivalent with what has been assigned to other areas in Storey Park. Table 2 on Page 11, identifies the Capital Improvement Plan that is tied back to those qualifying assessments that Christy spoke about in the Engineer's Report. Table 3 on Page 12, identifies the construction funds that are tied to the Engineer's Report, the eligible improvements, conservative amounts for the debt service reserve, capitalized interest (CI) and the varying costs with the underwriter's discount, cost of issuance (COI) and contingency for the bond issue. You can see that these are very conservative assumptions on the interest rate.

Mr. Bonin: That is a high interest rate.

Ms. Adams: Yes. I think Lennar recently issued a bond in another District that was in the high 3%, but again, these numbers are very conservative. The reason that these are very conservative and the maximum eligible funds are presented, is to give the Board flexibility. You can go down from here with the bond issuance, but this basically has a ceiling for everything and gives the Board full flexibility when it comes to the bond issuance. Table 4, identifies the debt service that will be assigned. Table 5 takes the par debt and allocates it to the 357 units. Table 6 is where you start to see a gross annual debt service assessment. Again, these are the maximum amounts that will be eligible, but often you will see these numbers going down based on what is decided that the market will bear as far as the gross annual debt service. The bond issuance is tied into that cap. So, these parameters are high in order to get the maximum flexibility. You are

not approving these terms. You are approving a ceiling or cap. I think all of you have probably been through this discussion numerous times. The last page, Page 16, Christy just spoke about the two property owners for Parcels K-1 and K-2 that comprise Assessment Area 4. What we are looking at as far as a timeline is closing on Moss Park Properties. I think Lennar is planning to close in March, so we suggest setting your assessment hearing in April.

C. Consideration of Resolution 2021-07 Declaring Special Assessments

Ms. Adams: Resolution 2021-07 declares special assessments and will notify landowners that there is an intent to impose assessments. It requires a 30-day mailed notice as well as two legal notices that run in the newspaper 21 and 14 days. We are seeking a motion to adopt Resolution 2021-07 declaring special assessments.

Ms. Trucco: Let me add something, if I may. That totally summarized it. This resolution declares special assessments on Assessment Area 4, in accordance with the Master Assessment Methodology Report in your agenda. I think you are all familiar with Parcel K. That is the same area. In order to construct the infrastructure improvements in accordance with the Engineer's Report that is also in your agenda, the Board would adopt a Preliminary Assessment Roll that is at the end of the Master Assessment Methodology Report. Like Tricia was saying, it provides for a public hearing as well, so any interested or affected parties can come forward and provide comments on the assessments. Is there anything else that I can add on this?

Mr. Bonin: Are there any notice provisions for that public hearing?

Ms. Adams: Yes. It does require a 30-day mailed notice to the landowners as well as a 21 and 14 day newspaper notice.

Mr. Bonin: For what purpose?

Ms. Trucco: To notify the owners. There will also be a public hearing and a resolution will be published.

Ms. Adams: Just to remind the Board, any motion regarding the approval of Resolution 2021-07, declaring special assessments, also contemplates that the Master Assessment Methodology Report and Engineer's Report are subject to staff verification, because we know that there are going to be some changes.

On MOTION by Mr. Kraljev seconded by Mr. Ashby with all in favor Resolution 2021-07 Declaring Special Assessments was adopted.

D. Consideration of Resolution 2021-08 Setting a Public Hearing for Special Assessments

Ms. Adams: As Christy just alluded to, Resolution 2021-08 sets the date, place and time of the public hearing. If we want that to coincide with your April Board meeting, that will fall on April 22nd at 4:00 p.m. If the Board is comfortable with the timing; closing on the property in March and being ready for the assessment hearing in April, a motion to that effect would be in order. If you want to do it sooner, we could set another date.

On MOTION by Mr. Ashby seconded by Mr. Kraljev with all in favor Resolution 2021-08 Setting a Public Hearing for Special Assessments on April 21, 2021 at 4:00 p.m. at this location was adopted.

NINTH ORDER OF BUSINESS

Consideration of Resolution 2021-09 Declaring the Series 2015 Project Complete

Ms. Adams: This is for Area 1. I think that the Board recently declared another assessment area complete, but as you recall, when this area was developed, there was an Engineer's Report that identifies all of expenses. Once those funds are expended, we need to close that out with the Trustee. So, this action is one the Board is required to take in order to close out the construction account with the Trustee.

Ms. Trucco: Yes. This is according to the Master Trust Indenture. The Supplemental Indenture is for the 2021 bonds. It is just a requirement that is required under this Master Trust Indenture that the District already entered into. The certificate from the District Engineer is attached, certifying that the Assessment Area 1 project is indeed complete in accordance with the report from 2015.

Ms. Adams: Christy, I don't know if you had any comments on this, but this was looked at back in 2020 and there were a couple of things to tie up. So, we are just circling back to the Certificate of Completion.

Ms. Baxter: Correct.

Ms. Adams: We need a motion to adopt Resolution 2021-09.

On MOTION by Mr. Kraljev seconded by Mr. Ashby with all in favor Resolution 2021-09 Declaring the Series 2015 Project Complete was adopted.

Ms. Adams: The consideration of a temporary Access Easement Agreement to allow a resident to install a pool was removed from the agenda. Because of the split rail fence that's being installed in that vicinity, we want to look at that area again once the fence is installed to ensure that we are going to be okay with the pool contractor. After having further conversations with the pool contractor, we pulled this item from the agenda.

TENTH ORDER OF BUSINESS Discussion of District Staff Work Authorizations

Ms. Adams: This is more of an information item for Board Members regarding District staff work authorizations. We recently had residents directly emailing legal counsel. We wanted to make the Board aware of what legal counsel should be doing in terms of communication with residents, which is to direct them back to District Management Staff. That way the District is not incurring any legal expenses if a resident directly emails Jan or Kristen or any part of our legal staff. I just wanted to make you aware of that. Of course, if there is any direction from the Board to do otherwise, we would be happy to accommodate you.

Ms. Trucco: If there's a legal concern that you think we should look into, let me know.

Ms. Adams: District Management Staff or the Board Members are the one that should be conferring with legal counsel on issues rather than residents confirming directly.

Mr. Bonin: That makes sense.

ELEVENTH ORDER OF BUSINESS Staff Reports

A. Attorney

Ms. Trucco: We are working through the bond issuance and starting that process. I think there was also a question about whether the City of Orlando has new restrictions related to COVID-19 when we were talking about use of the green space by the District. So, after a little digging, we are in Phase 3, according to the Executive Order, which means there are no restrictions on the capacity. There are some recommendations for 6 feet distancing in large venues such as a movie theater. The City of Orlando is also in Phase 3. On their website, I found some information. There is a mandatory mask ordinance currently in effect in Orange County, but otherwise, there are no capacity restrictions currently that we need to adhere to as the

District. We will probably also add that those phases were established by Governor DeSantis' task force back in April. Since then, there have been variants of COVID-19 as you all know. So, it's just something to consider, perhaps at the public hearing for that green space. I just was reporting back to you about certain restrictions that pertain to the District right now with respect to COVID-19. One other thing that I would add, is Tricia confirmed that she contacted the insurance carrier and as far as their recommendations, they just said, "If we don't have a pool, we don't have an issue." Is that correct?

Ms. Adams: The District does not have a pool.

Ms. Trucco: With respect to playgrounds or athletic courts, they are recommending that we post signs about social distancing, hand sanitizing and wearing masks. Otherwise, that's the only update I have and there's nothing else to report to the Board. Thank you.

B. Engineer

Ms. Adams: Christy, do you have any report?

Ms. Baxter: I don't have anything further to report today. Thank you.

C. District Manager's Report

• Applied Aquatic Agreement (Added)

Ms. Adams: I provided in advance of the meeting, an agreement with Applied Aquatic for Ponds L-2, L-4 and L-5. This agreement is for aquatic maintenance services. Our Operations Manager can speak to the area that this covers. This agreement has been signed by the vendor as well as the Vice Chairman of the Board so we are seeking a motion to ratify it. The annual cost to the District is \$4,800.

Mr. Scheerer: It is in the budget for this year.

Mr. Bonin: How long have these ponds been online?

Mr. Scheerer: There was a lot of construction going on back there where we couldn't get access to it now that everything has opened up.

Mr. Kraljev: We just finished L-4 in the last eight months and L-5 just recently finished.

Mr. Scheerer: These are the L-2, L-4 and L-5 ponds.

Mr. Bonin: Is this just monthly?

Mr. Scheerer: Yes, sir. Monthly spraying like the Board approved for the two L-6 ponds last month.

Ms. Adams: Same contractor.

Mr. Bonin: Good.

Ms. Adams: We need a motion to ratify the agreement.

On MOTION by Mr. Bonin seconded by Mr. Kraljev with all in favor the approval of the agreement with Applied Aquatic for Ponds L-2, L-4 and L-5 in the amount of \$4,800 was ratified.

i. Approval of Check Register

Ms. Adams: You have the Check Register from January 22, 2021 through February 18, 2021 in the amount of \$97,437.58. The detail is behind the summary. If there are any questions, we can discuss those. If not, I would ask for a motion to approve it.

On MOTION by Mr. Kraljev seconded by Mr. Ashby with all in favor the January 22, 2021 through February 18, 2021 Check Run Summary in the amount of \$97,437.58 was approved.

ii. Balance Sheet and Income Statement

Ms. Adams: You also have the unaudited financials through January 31, 2021. It was provided for informational purposes and no Board action is required. I'm happy to answer any questions.

• Field Management Report (Added)

Ms. Adams: Would this Board be interested in any field management updates or follow up on any of the items that were brought up during public comments last month?

Mr. Bonin: Are there any noteworthy items?

Mr. Scheerer: At the last meeting, there were several items that were brought up before the Board. Most of it was speed enforcement and some landscape concerns by one resident. I spoke and met with the resident. Their concerns are with tracts that are currently being improvement. We have a column and split row fencing going in along I-5 and OSL-9 and 10 area as well as the connector road between Dowden Road and Story Park Drive. I explained to them that it's happening. They are putting in the hardscape first and then they will put in the landscaping and irrigate later. We did get pricing for 2022 budget purposes. You were here when we presented information about the digital speed displays. So, we obtained up to date and accurate pricing. I also got a price from Fausnight to paint the 25 mile-per-hour speed limit on

the roads, if the Board ever chose to do it; however, nothing has been said since. We have the numbers and will add that to the 2022 budget if that is the desire of the Board.

Ms. Adams: What about raising the sidewalk, which was pending installation?

Mr. Scheerer: The District Engineer sent out a diagram of the raised sidewalks. I think there are probably three of them that they are looking to do at some point. One of them is on Satire Street in front of the park.

Ms. Adams: Those function like a speed table.

Mr. Scheerer: Yes. Once they get those in, that will be a good addition at that location. We will maintain the silt fence on the back of the L-6 pond at the end of Satire Street.

Mr. Kraljev: I talked with the vendor this morning to fix the outlet. I told them that we would be reaching out to them because that same method goes all the way down to the bridge. So, I will connect you guys and you can get a quote.

Mr. Scheerer: Thank you. People are complaining about dirt bikes. One of the requests that I received from a homeowner was that we need to do something to secure that. So, the only thing I could think of is we will just continue with the split rail fence, depending on the price and how much of an increase they want in their assessments for next year. We are getting them that information because it was requested from us. So, no action needs to be taken at this time. We have been having some challenges with the Bahia sod at the dog park on Philosophy Way. The Bahia is not growing so we have some bald spots. On April 1st, we are going to be closing that park and will coordinate that with on-site HOA staff as well for about three weeks. So, we have some sod replacements. We are also going to treat for flea and ticks, do some general maintenance and make sure it gets all watered in properly. We don't want any pets involved and we will cable lock everything up and put notices up in each location for access to the dog park and make sure that a message gets out to the residents. That is on our calendar for April 1st. It is just preventative maintenance. We don't want to do it, but we have some challenges with Bahia not growing in the winter months. The park is seriously being used. It is suddenly an active park.

Mr. Bonin: It is. I was there today and there were five folks in there.

Ms. Adams: Wow. That's great.

Mr. Scheerer: It is a great park that has a great design and there are a lot of good features in there for pets. It's an amazing park.

Ms. Adams: Just to piggyback on traffic calming, the City of Orlando has been active in the community. At the beginning of last month's meeting, you learned that they were installing a speed radar trailer. The data from that is not yet available, but they indicated that they would share that data when it becomes available. They also assigned a Liaison Officer to Storey Park. That officer has been provided with addresses as residents reported seeing problems with dirt bikes originating at these addresses. They were also provided with the addresses of residents who reported frequent visitation from dirt bids. In each case, they have been responsive and indicated that they added these addresses on their routine traffic patrol and are making efforts to be out there between after school hours to dark to be visible with patrols. We continue to partner with the HOA on messaging. The key message is if you feel like your life is threatened or there is a public safety issue, call the police.

Mr. Kraljev: Today a dump truck pulling out onto Dowden Road, collided with a small vehicle.

Ms. Adams: Huh. Dump trucks don't pull out quickly, usually.

Mr. Scheerer: We have a hole that developed in the median just east of the 417 exit onto Dowden Road. We think it is stormwater related. Ben, I appreciate all of your help. You hooked me up with Oscar at Orange County who in turn hooked me up with Joe with the City of Orlando. There are three inlets open on the other side of Dowden Road. For one inlet, I popped the cover with a toothpick to get to a pipe that runs directly underneath one of the holes. So, there is possibly a void in the pipe. We are waiting for the City of Orlando. Hats off to OmegaScapes who turned it in to us. They sent me pictures. I left where I was at and got there in about 30 minutes. They state that it was off of its own and flagged off. I was there this morning about 7:00 a.m. and I didn't see any increase in the hole. Ben has been there off and on most of the day and I believe that's stabilized at this point. We will see. Hopefully, Joe gets his guys out there. I'm expecting a call from him. If not, I will be onsite again tomorrow and will reach back out to them. I appreciate everyone's help on that.

TWELFTH ORDER OF BUSINESS Supervisor's Request

Ms. Adams: Are there any Supervisor's Requests or other items? If not, we need a motion to adjourn.

THIRTEENTH ORDER OF BUSINESS

Adjournment

On MOTION by Mr. Kra favor the meeting was adjoint	ljev seconded by Mr. Ashby with all in burned.

1.0 Introduction

The Storey Park Community Development District (the "District") is a local unit of special-purpose government organized and existing under Chapter 190, Florida Statutes as amended. The District anticipates the issuance at this time of not to exceed \$5,785,000 of tax exempt bonds in one or more series (the "Bonds") for the purpose of financing certain Assessment Area Four infrastructure improvements ("Assessment Area Four Capital Improvement Plan") within a designated assessment area (herein the "Assessment Area Four") within the District more specifically described in the Engineer's Report Revision 7 – Parcel K Boundary Expansion dated February 22, 2021 prepared by Poulos & Bennett, as may be amended and supplemented from time to time (the "Engineer's Report"). The District anticipates that the construction and/or acquisition of all or a portion of the Assessment Area Four Capital Improvement Plan shall provide special benefit to property owners within the Assessment Area Four. Assessment Area Four is identified as Parcel K Phase 1 and Parcel K Phase 2 in Exhibit 17 of the Engineer's Report.

1.1 Purpose

This Supplemental Assessment Methodology for Assessment Area Four (the "Supplemental Report") which supplements the certain Master Assessment Methodology for Assessment Area Four dated February 25, 2021 (the "Master Report") and together with the Supplemental Report (the "Assessment Report"), provides for an assessment methodology that allocates the debt to be incurred by the District to benefiting properties within Assessment Area Four. This Assessment Report allocates the debt to properties based on the special benefits each receives from the Assessment Area Four Capital Improvement Plan. This Assessment Report will be supplemented with one or more supplemental methodology reports to reflect the actual terms and conditions at the time of the issuance of each series of Bonds issued to finance all or a portion of the Assessment Area Four Capital Improvement Plan. This Assessment Report is designed to conform to the requirements of Chapters 190 and 170, Florida Statutes with respect to special assessments and is consistent with our understanding of case law on this subject.

The District intends to impose non ad valorem special assessments on the benefited lands within the Assessment Area Four based on the Assessment Report. It is anticipated that all of the proposed special assessments will be collected through the Uniform Method of Collection described in Chapter 197.3632, Florida Statutes or any other legal means available to the District. It is not the intent of this Assessment Report to address any other assessments, if applicable, that may be levied by the District, a homeowner's association, or any other unit of government.

1.2 Background

The District currently includes approximately 993.3 acres in the City of Orlando, Orange County, Florida, of which Assessment Area Four represents approximately 101 acres. The development program for Assessment Area Four currently envisions approximately 357 residential units. The proposed development program is depicted in Table 1. It is

identified in the Engineer's Report as Parcel K. It is recognized that such land use plan may change, and this Assessment Report will be modified or supplemented accordingly.

The improvements contemplated by the District in the Assessment Area Four Capital Improvement Plan will provide facilities that benefit certain property within the Assessment Area Four. Specifically, the District will construct and/or acquire certain master roadway and alley facilities, master stormwater facilities, earthwork, potable water distribution facilities, reclaimed water distribution facilities, sanitary sewer system facilities, offsite improvements, master signage, trails, differential cost of electrical undergrounding and landscaping and hardscaping. The acquisition and construction costs are summarized in Table 2.

The assessment methodology is a four-step process.

- The District Engineer must first determine the public infrastructure improvements that may be provided by the District and the costs to implement the Capital Improvement Plan.
- 2. The District Engineer determines the assessable acres that benefit from the District's Capital Improvement Plan.
- 3. A calculation is made to determine the funding amounts necessary to acquire and/or construct the Capital Improvement Plan.
- 4. This amount is initially divided equally among the benefited properties on a prorated assessable acreage basis. Ultimately, as land is platted, this amount will be assigned to each of the benefited properties based on the number of platted units.

1.3 Special Benefits and General Benefits

Improvements undertaken by the District create special and peculiar benefits to the property within Assessment Area Four, different in kind and degree than general benefits, for properties within its borders outside of Assessment Area Four as well as general benefits to the public at large.

However, as discussed within the Assessment Report, these general benefits are incidental in nature and are readily distinguishable from the special and peculiar benefits, which accrue to property within Assessment Area Four. The implementation of the Assessment Area Four Capital Improvement Plan enables properties within the boundaries of the Assessment Area Four to be developed. Without the District's Assessment Area Four Capital Improvement Plan, there would be no infrastructure to support development of land within Assessment Area Four. Without these improvements, development of the property within Assessment Area Four would be prohibited by law.

There is no doubt that the general public and property owners outside of Assessment Area Four and outside of the District will benefit from the provision of the Assessment Area Four Capital Improvement Plan. However, these benefits will be incidental for the purpose of the Assessment Area Four Capital Improvement Plan, which is designed solely to meet the needs of property within the Assessment Area Four. Properties outside of Assessment Area Four of the District boundaries do not depend upon the District's Assessment Area Four Capital Improvement Plan. The property owners within Assessment Area Four are therefore receiving special benefits not received by those outside the District's boundaries and outside of the Assessment Area Four.

1.4 Requirements of a Valid Assessment Methodology

There are two requirements under Florida law for a valid special assessment:

- 1) The properties must receive a special benefit from the improvements being paid for.
- The assessments must be fairly and reasonably allocated to the properties being assessed based on the special benefit such properties receive.

Florida law provides for a wide application of special assessments that meet these two characteristics of special assessments.

1.5 Special Benefits Exceed the Costs Allocated

The special benefits provided to the property owners within Assessment Area Four will be greater than the costs associated with providing these benefits. The District Engineer estimates that the District's Assessment Area Four Capital Improvement Plan that is necessary to support full development of property within Assessment Area Four will cost approximately \$13,630,190. The District's Underwriter projects that financing costs required to fund a portion of the Assessment Area Four Capital Improvement Plan costs, the cost of issuance of the Bonds, the funding of a debt service reserve account and capitalized interest, will be approximately \$5,785,000. Additional funding required to complete the Assessment Area Four Capital Improvement Plan is anticipated to be funded by Developer. Without the Assessment Area Four Capital Improvement Plan, the property within Assessment Area Four would not be able to be developed and occupied by future residents of the community.

2.0 Assessment Methodology

2.1 Overview

The District anticipates issuing approximately \$5,785,000 in Bonds in one or more series to fund a portion of the District's entire Assessment Area Four Capital Improvement Plan, provide for capitalized interest, a debt service reserve account and pay cost of issuance. It is the purpose of this Assessment Report to allocate the \$5,785,000 in debt to the properties within Assessment Area Four benefiting from the

Assessment Area Four Capital Improvement Plan. It is anticipated that the District will issue less than the full cost to complete the Assessment Area Four Capital Improvement Plan, and this report will be supplemented to reflect actual bond terms.

Table 1 identifies the land uses as identified by the Developer within Assessment Area Four. The District has commissioned an Engineer's Report that includes estimated construction costs for the Assessment Area Four Capital Improvement Plan needed to support the development, which these construction costs are outlined in Table 2. The improvements needed to support the development are described in detail in the Engineer's Report and are estimated to cost \$13,630,190. Based on the estimated costs, the size of the bond issue under current market conditions needed to generate funds to pay for a portion of the Assessment Area Four Capital Improvement Plan and related costs was determined by the District's Underwriter to total approximately \$5,785,000. Table 3 shows the breakdown of the bond sizing.

2.2 Allocation of Debt

Allocation of debt is a continuous process until the development plan for the Assessment Area Four is completed. Until the platting process occurs, the Assessment Area Four Capital Improvement Plan funded by District bonds benefits all acres within Assessment Area Four.

The initial assessments will be levied on an equal basis to all platted lots first, then gross acreage within remaining properties of Assessment Area Four. A fair and reasonable methodology allocates the debt incurred by the District proportionately to the properties receiving the special benefits. At this point all of the lands within Assessment Area Four are benefiting from the improvements.

Once platting or the recording of a declaration of condominium of any portion of Assessment Area Four into individual lots or units ("Assigned Properties") has begun, the assessments will be levied to the Assigned Properties based on the benefits they receive, on a first platted, first assigned basis. The "Unassigned Properties" defined as property that has not been platted or subjected to a declaration of condominium, will continue to be assessed on a per acre basis. Eventually the development plan will be completed and the debt relating to the bonds will be allocated to the platted units within the Assessment Area Four, which are the beneficiaries of the Assessment Area Four Capital Improvement Plan, as depicted in Table 5 and Table 6. If there are changes to development plan, a true up of the assessment will be calculated to determine if a debt reduction or true-up payment from the Developer is required. The process is outlined in Section 3.0.

The assignment of debt in this Supplemental Report sets forth the process by which debt is apportioned. As mentioned herein, this Supplemental Report will be supplemented from time to time.

2.3 Allocation of Benefit

The Assessment Area Four Capital Improvement Plan consists of stormwater management system, master roadway, water, sewer, reuse and undergrounding of dry utilities improvements, parks and recreational facilities, landscaping and certain master roadway and alley facilities, master stormwater facilities, earthwork, potable water distribution facilities, reclaimed water distribution facilities, sanitary sewer system facilities, off-site improvements, master signage, trails, differential cost of undergrounding of electrical undergrounding, and landscaping and hardscaping and professional fees along with related incidental costs. There are currently five product types within the planned development within Assessment Area Four. The single family 50' home has been set as the base unit and has been assigned one equivalent residential unit ("ERU"). Table 4 shows the allocation of benefit to the particular land uses. It is important to note that the benefit derived from the improvements on the particular units exceeds the cost that the units will be paying for such benefits.

2.4 Lienability Test: Special and Peculiar Benefit to the Property

Construction and/or acquisition by the District of its proposed Assessment Area Four Capital Improvement Plan will provide several types of systems, facilities and services for its residents. These include master roadway and alley facilities, master stormwater facilities, earthwork, potable water distribution facilities, reclaimed water distribution facilities, sanitary sewer system facilities, off-site improvements, master signage, trails, electrical undergrounding and landscaping and hardscaping. These improvements accrue in differing amounts and are somewhat dependent on the type of land use receiving the special benefits peculiar to those properties, which flow from the logical relationship of the improvements to the properties.

Once these determinations are made, they are reviewed in the light of the special benefits peculiar to the property, which flow to the properties as a result of their logical connection from the improvements in fact actually provided.

For the provision of the Assessment Area Four Capital Improvement Plan, the special and peculiar benefits are:

- 1) the added use of the property,
- 2) added enjoyment of the property, and
- 3) the probability of increased marketability and value of the property.

These special and peculiar benefits are real and ascertainable, but are not yet capable of being calculated as to value with mathematical certainty. However, each is more valuable than either the cost of, or the actual non-ad valorem special assessment levied for the improvement or the debt as allocated.

2.5 Lienability Test: Reasonable and Fair Apportionment of the Duty to Pay Non-Ad Valorem Assessments

A reasonable estimate of the proportion of special and peculiar benefits received from the public improvements described in the Engineer's Report is delineated in Table 5 (expressed as Allocation of Par Debt per Product Type). This is also shown on Table 7 depicting Allocation of Par Debt per Product Type.

The determination has been made that the duty to pay the non-ad valorem special assessments is fairly and reasonably apportioned because the special and peculiar benefits to the property derived from the acquisition and/or construction of Assessment Area Four Capital Improvement Plan have been apportioned to the property within Assessment Area Four according to reasonable estimates of the special and peculiar benefits provided consistent with the land use categories.

Accordingly, no acre or parcel of property within the boundaries of Assessment Area Four will have a lien for the payment of any non-ad valorem special assessment more than the determined special benefit peculiar to that property and therefore, the debt allocation will not be increased more than the debt allocation set forth in this Assessment Report.

In accordance with the benefit allocation described for the product types in Table 4, a total debt per unit and an annual assessment per unit have been calculated for each product type (Table 6). These amounts represent the preliminary anticipated per unit debt allocation assuming all anticipated units are built and sold as planned, and the portion of Assessment Area Four Capital Improvement Plan is constructed as planned.

3.0 True Up Mechanism

Although the District does not process plats, declaration of condominiums, site plans or revisions thereto for the developer, it does have an important role to play during the course of platting and site planning. Whenever a plat, declaration of condominium or site plan is processed, the District must allocate a portion of its debt to the property according to this Supplemental Report outlined herein. In addition, the District must also prevent any buildup of debt on Unassigned Properties. Otherwise, the land could be fully conveyed and/or platted without all of the debt being allocated. To preclude this, when platting for 25%, 50%, 75% and 100% of the units planned for platting has occurred within Assessment Area Four, the District will determine the amount of anticipated assessment revenue that remains on the Unassigned Properties, taking

into account the full development plan of Assessment Area Four. If the total anticipated assessment revenue to be generated from the Assigned and Unassigned Properties is greater than or equal to the maximum annual debt service then no debt reduction or true-up payment is required. In the case that the revenue generated is less then the required amount then a debt reduction or true-up payment by the landowner in the amount necessary to reduce the par amount of the outstanding bonds plus accrued interest to a level that will be supported by the new net annual debt service assessments will be required.

If a true-up payment is made less than 45 days prior to an interest payment date, the amount of accrued interest will be calculated to the next succeeding interest payment date.

4.0 Assessment Roll

The District will initially distribute the liens across the property within Assessment Area Four boundaries on a gross acreage basis. As Assigned Properties becomes known with certainty, the District will refine its allocation of debt from a per acre basis to a per unit basis as shown in Table 6. If the land use plan changes, then the District will update Table 6 to reflect the changes as part of the foregoing true-up process. As a result, the assessment liens are neither fixed nor are they determinable with certainty on any acre of land in the District prior to the time final Assigned Properties become known. The current assessment roll is attached as Table 7.

The Limited Offering Memorandum, in substantially the form of the Preliminary Limited Offering Memorandum (as herein defined and subject to the other conditions set forth herein) attached hereto as Exhibit B, with such changes as are necessary to conform to the details of the Bonds and the requirements of the Bond Purchase Contract, is hereby approved. The District hereby authorizes the Chairperson (or, in the absence of the Chairperson, any other member of the Board) to deem "final" the Preliminary Limited Offering Memorandum except for permitted omissions all within the meaning of Rule 15c2-12 of the Securities Exchange Act of 1934 and to execute a certificate in that regard.

The policy statement is consistent with the policies of other governments including Orange County and the Southwest Florida Water Management District (SWFWMD) as it regards their natural, conservation tree protection and wetland conservation/preservation areas:

The natural areas are not intended to be maintained. These areas are to be left untouched to allow for nature to take its normal course. Vegetation that dies including, but not limited to, trees, are left to fulfill their role in nature's process.

Trees, within or immediately adjacent to these areas, that have died and appear to pose a threat of falling and damaging an abutting property owner's property may be addressed by the abutting property owner after securing permission to remedy the situation from the District and all required permits from all authorities having jurisdiction including Orange County and SWFWMD. Such abutting property owner must initially contact the District for permission to address the removal or remediation of the threatening situation and shall then be responsible for any needed permitting or review by Orange County and/or SWFWMD. Permitted trimming and/or

removal, where warranted, shall be done at the expense of the abutting property owner. The goal is to minimize disturbance these areas.

In the event that a tree does fall onto another's property, that property owner has the right to cut back or limb the tree as necessary to their individual property line. The rest of the tree is to be left as-is. This would also pertain to normal maintenance, which would allow an owner to trim back any encroaching vegetation to their property line. No one is allowed to encroach into the nature areas for any reason, from maintenance to placement of personal property, of any kind.

Storey Park Community Development District Disciplinary & Enforcement Rule Law Implemented: ss. 120.69, 190.011, 190.0121 Fla; Stat.

Effective date: March 25, 2021

In accordance with Chapters 190 and 120 of the Florida Statutes; and on March 25, 2021 at a duly noticed public meeting, the Board of Supervisors of the Storey Park Community Development District adopted the following rules to govern disciplinary and enforcement matters.

SUSPENSTION AND TERMINATION OF PRIVILEGES

- 1. **Introduction**. This rule addresses disciplinary and enforcement matters relating to the use of the Amenity Policies for the Recreational Facilities, as such may change from time to time.
- 2. **General Rule.** All persons using the Recreational Facilities and entering District properties are responsible for compliance with, and shall comply with, the Amenity Policies and Recreational Facilities Rules established for the safe operations of the District's Amenities and Recreational Facilities.
- 3. **Suspension of Rights.** The District, through its Board and District Manager or the District Manager's designee, shall have the right to restrict, suspend, or terminate the Amenity privileges of any person to use the Amenities or Recreational Facilities for any of the following behavior:
 - a. Exhibits unsatisfactory behavior, conduct or appearance;
 - b. Fails to pay fees owed to the District in a proper and timely manner;
 - c. Fails to abide by any District rules or policies (e.g., Amenity Rules);
 - d. Treats the District's supervisors, staff, management, contractors, or other representatives, or other residents or guests, in an unreasonable or abusive manner;
 - e. Damages or destroys District property;
 - g. Engages in conduct that is improper or likely to endanger the health, safety, or welfare of the District, or its supervisors, staff, management, contractors, or other representatives, or other residents or Guests; or
 - h. Commits or is alleged, in good faith, to have committed a crime on or off District property that leads the District to reasonably believe endangers District residents, staff, and guests.
- 4. **Authority of District Manager**. The District Manager or his/her designee has the ability to remove any person from one or all Amenities or Recreational Facilities if any of the above-referenced behaviors are exhibited or actions committed or if in his/her discretion it is the District's best interests to do so. The District Manager or his/her designee may at any time restrict or suspend for cause or causes, including but not limited to those described above; any person's privileges to use any or all of the Amenities or Recreational Facilities until the next regularly scheduled meeting of the Board of Supervisors. Notice of same shall be provided by certified mail.
- 5. Process for Termination or Suspension of Amenity Privileges.
 - a. Offenses:

- i. First Offense: Verbal warning by staff and suspension from the Amenities and Recreational Facilities for up to one week from the commencement of the suspension. Violations that result in any suspension period shall be recorded by staff, signed by the individual offender(s), and held on file.
- ii. Second Offense: Automatic suspension of all amenity privileges for up to thirty days from the commencement of the suspension, with the preparation by Amenity staff of a written report to be signed by the offender(s) and filed.
- iii. Third Offense:. Suspension of all Amenity privileges for up to one year. Such suspension shall run to the next regular meeting of the Board of Supervisors. At said meeting, the record of all previous offenses will be presented to the Board for recommendation of termination of the offender(s) privileges for one calendar year. The length of the suspension is in the discretion of the Board and may be for more or less than one year, depending on the nature of the violation.
- b. Each offense shall expire one year after such offense was committed, except in cases of egregious behavior that, in the discretion of the Board, may warrant a longer or even permanent suspension. After the expiration of one year, or longer as provided for herein, the number of offenses on record for such offender(s) shall be reduced by one. For example, if a first offense is committed on February 1 and a second offense on August 1, there will be two offenses on record until February 1 of the following year, at which time the first offense will expire, and the second offense will thereafter be considered a first offense until it expires on the following August 1. The provisions of this Paragraph shall not at any time serve to reduce any suspensions or terminations, which may have been imposed prior to the expiration of any offenses.

Notwithstanding the foregoing, any time a user of the Amenity is arrested for an act committed, or allegedly committed, while on the premises of the Amenity, or violates these Policies in a manner that, in the discretion of the District Manager or his/her designee upon consultation with one Board member, justifies suspension beyond the guidelines set forth above, such offender(s) shall have all amenity privileges immediately suspended until the next Board of Supervisors meeting. At the Board meeting, the Board will be presented with the facts surrounding the arrest or violation and the Board may make a recommendation of suspension or termination of the offender(s) privileges, which suspension or termination may include members of the offender(s) household and may, upon the first offense, equal to or exceed one year. In particular situations that pose a long term or continuous threat to the health, safety and welfare of the District and its residents and users, permanent termination of Amenity privileges may be considered and warranted.

Any suspension or termination of Amenity privileges may be appealed to the Board of Supervisors for reversal or reduction. The Board's decision on appeal shall be final.

6. **Legal Action**; **Criminal Prosecution**. If any person is found to have committed any of the infractions noted in Section 3 above, such person may additionally be subject to arrest for trespassing or other applicable legal action, civil or criminal in nature.

7. Severability . If any section, paragraph, clause or provision of this rule shall be held to be invalid or ineffective for any reason, the remainder of this rule shall continue in full force and effect, it being expressly hereby found and declared that the remainder of this rule would have been adopted despite the invalidity or ineffectiveness of such section.
